

## Orchard Hills Homeowners Association

### Storm Door Policy

All homeowners in Orchard Hills Estates may install storm doors, at their expense, provided that prior to installation such doors are specifically approved by the Orchard Hills Homeowners Association Board of Directors and meet the specifications adopted for Orchard Hills Homeowners Association on Oct. 14, 2014. All storm doors shall be either mid-view or full-view, which in storm door industry terminology means that the area of the storm door's glass shows approximately 75% (mid-view) to 100% (full-view) of the front door. The frame or trim area of all storm doors shall be white in color. The glass shall be transparent and without any grills or other ornamentation.

Storm doors are optional, but if used they must be one of these types above. They must be either full-view (left) or 3/4 mid-view (right), and without ornamentation, grills, bars, other than shown here. The exterior color must be white.
